Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Town of Waitsfield, Vermont as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the Town of Waitsfield, Vermont's basic financial statements as listed in the Table of Contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the modified cash basis of accounting described in Note I; this includes determining that the modified cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in "Government Auditing Standards," issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Town's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Town's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Basis for Qualified Opinions

The modified cash basis of accounting requires the Town to record its investments at historical cost. Currently, the Town's investments in the governmental activities and the Cemetery Trust Fund are recorded at current market value. The difference between the historical cost and current value is not reasonably determinable.

Qualified Opinions

In our opinion, except for the effects of the matter described in the "Basis for Qualified Opinions" paragraph, the financial statements referred to previously present fairly, in all material respects, the respective financial position of the governmental activities and the Cemetery Trust Fund of the Town of Waitsfield, Vermont, as of June 30, 2018, and the respective changes in financial position thereof for the year then ended in conformity with the modified cash basis of accounting, as described in Note I.D.

Unmodified Opinions

In our opinion, the financial statements referred to previously present fairly, in all material respects, the respective financial position of the business-type activities, the General Fund, the Vermont Grant Fund, the Sewer Fund, the Village West Sidewalk Fund, the Restroom, Recreation and Conservation Fund, the Joslin Library Fund, the Water Fund, the Wait House Fund and the aggregate remaining fund information of the Town of Waitsfield, Vermont as of June 30, 2018, and the respective changes in financial position thereof for the year then ended in conformity with the modified cash basis of accounting, as described in Note I.D.

Basis of Accounting

We draw attention to Note I.D. of the financial statements, which describes the basis of accounting. The financial statements are prepared on the modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to that matter.

Other Matters

Correction of Errors

As described in Note II.B. of the financial statements, certain errors were corrected by management during the current year. Our opinion is not modified with respect to this matter.

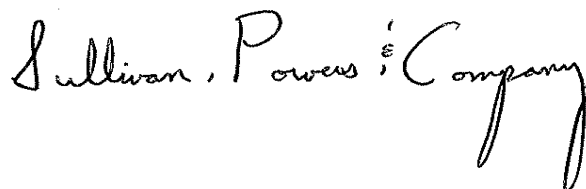

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town of Waitsfield, Vermont's basic financial statements. The budgetary comparison information on Schedule 1 and the combining fund financial statements are presented for purposes of additional analysis and are not a required part of the basic financial statements. These schedules have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion or provide any assurance on them.

Other Reporting Required by "Government Auditing Standards"

In accordance with "Government Auditing Standards", we have also issued our report dated November 15, 2018 on our consideration of the Town of Waitsfield, Vermont's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with "Government Auditing Standards" in considering the Town of Waitsfield, Vermont's internal control over financial reporting and compliance.

TOWN OF WAITSFIELD, VERMONT
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2018

The Town of Waitsfield, Vermont (herein the "Town") operates under a Selectboard form of government and provides the following services: public safety, highways and streets, culture and recreation, health and social services, community development, public improvements, planning and zoning, water, sewer and general administrative services.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

As discussed further in Note I.D., these financial statements are presented on the modified cash basis of accounting. This basis of accounting differs from accounting principles generally accepted in the United States of America (GAAP). Generally accepted accounting principles include all relevant Governmental Accounting Standards Board (GASB) pronouncements. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing accounting and financial reporting principles. The following is a summary of the more significant accounting policies employed in the preparation of these financial statements.

A. The Financial Reporting Entity

This report includes all of the activity of the Town of Waitsfield, Vermont. The financial reporting entity consists of the primary government; organizations for which the primary government is financially accountable; and other organizations for which the nature and significance of their relationship with the primary government are such that their exclusion would cause the reporting entity's financial statements to be misleading or incomplete. Component units are legally separate organizations for which the elected officials of the primary government are financially accountable. The primary government is financially accountable if it appoints a voting majority of the organization's governing body and it is able to impose its will on that organization or there is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on the primary government. The primary government is financially accountable if an organization is fiscally dependent on and there is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on the primary government regardless of whether the organization has a separately elected governing board; a governing board appointed by a higher level of government; or a jointly appointed board. Based on these criteria, there are no other entities that should be combined with the financial statements of the Town.

B. Basis of Presentation

The accounts of the Town are organized and operated on the basis of fund accounting. A fund is an independent fiscal and accounting entity with a separate set of self-balancing accounts which comprise its assets, deferred outflows of resources, liabilities, deferred inflows of resources, fund equity, receipts, and disbursements. Government resources are allocated to and accounted for in individual funds based upon the purposes for which they are spent and the means by which spending activities are controlled.

The basic financial statements of the Town include both government-wide statements and fund financial statements. The focus of the government-wide statements is on reporting the operating results and financial position of the Town as a whole. The focus of the fund financial statements is on reporting on the operating results and financial position of the most significant funds of the Town.

TOWN OF WAITSFIELD, VERMONT
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2018

Government-wide Statements: The statement of net position and the statement of activities display information about the primary government, the Town. These statements include the financial activities of the overall government. Eliminations have been made to minimize the double counting of activities between funds. These statements distinguish between the governmental and business-type activities of the Town. Governmental activities generally are financed through property taxes, intergovernmental receipts, and other nonexchange transactions. Business-type activities are financed in whole or in part by fees charged to external parties.

The statement of activities presents a comparison between direct expenses and program revenues for each function of the Town's governmental activities and for each segment of the Town's business-type activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular program or function. Program revenues include (a) charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Receipts that are not classified as program receipts, including all taxes, are presented as general receipts.

Fund Financial Statements: The fund financial statements provide information about the Town's funds. Separate statements for each fund category – governmental and proprietary – are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining funds are aggregated and reported as nonmajor funds.

The Town reports on the following major governmental funds:

General Fund – This is the Town's main operating fund. It accounts for all financial resources of the Town except those accounted for in another fund.

Vermont Grant Fund – This fund accounts for the assets held by the Town for future community development expenditures.

Sewer Fund – This fund accounts for the activity related to the assets held by the Town and capital investments for private sewer systems.

Village West Sidewalk Fund – This fund accounts for the design and construction expenditures for new segments of the Town's village west sidewalk.

Restroom, Recreation & Conservation Fund – This fund accounts for the funds that will be used to contribute to restroom, recreation and conservation capital projects as the Town determines appropriate.

Joslin Library Fund – This fund accounts for the capital improvement expenditures of the Joslin Library.

Cemetery Trust Fund – This fund accounts for the assets held by the Town in trust for the future costs associated with the cemeteries.

TOWN OF WAITSFIELD, VERMONT
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2018

The Town reports on the following major proprietary funds:

Water Fund – This fund accounts for the maintenance and operations of the water system.

Wait House Fund – This fund accounts for the maintenance and operations of the Wait House.

Proprietary fund operating receipts, such as charges for services, result from exchange transactions associated with the principal activity of the fund. Nonoperating receipts, such as subsidies and investment earnings, result from nonexchange transactions or ancillary activities.

C. Measurement Focus

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. Government-wide and proprietary fund financial statements are reported using the economic resources measurement focus within the limitations of the modified cash basis of accounting. Equity (i.e., modified cash basis net position) is segregated into restricted and unrestricted net position. Operating statements present increases (i.e., receipts) and decreases (i.e., disbursements) in modified cash basis net position.

Governmental fund financial statements are reported using the current financial resources measurement focus within the limitations of the modified cash basis of accounting. Their reported fund balances (modified cash basis fund balances) are considered a measure of available spendable resources and are segregated into nonspendable; restricted; committed; assigned and unassigned amounts. Operating statements of these funds present increases (i.e., receipts and other financing sources) and decreases (i.e., disbursements and other financing uses) in modified cash basis fund balances.

D. Basis of Accounting

Basis of accounting refers to when revenue and expenditures are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurement made, regardless of the measurement focus applied.

The Town's policy is to prepare its financial statements generally on the basis of cash receipts and disbursements; consequently, certain revenue and related assets are recognized when received rather than when earned and certain expenditures and related liabilities are recognized when paid rather than when the obligation is incurred. The exceptions to this are that the Town records investments and amounts due from others as assets and escrow liabilities as liabilities.

General capital asset acquisitions are reported as expenditures. Proceeds of general long-term debt are reported as other financing sources.

E. Assets, Liabilities and Equity

1. Cash

Cash balances of most Town funds are deposited with and invested by the Town Treasurer. The Town considers all short-term investments of ninety (90) days or less to be cash equivalents.

Excess cash of individual funds are shown as due from other funds and excess cash withdrawals are shown as due to other funds. Interest income is allocated based on the due from/to other funds balances.

2. Investments

The Town invests its investments as allowed by State Statute. Investments are reported at current market value. This is not in accordance with the modified cash basis of accounting which requires investments to be carried at cost.

3. Fund Equity

Fund equity is classified based upon any restrictions that have been placed on those balances or any tentative plans management may have made for those balances. Restrictions of net position in government-wide and proprietary fund financial statements represent amounts that cannot be appropriated or are legally restricted for a specific purpose by a grant, contract, or other binding agreement. Fund balances in governmental fund financial statements are classified as nonspendable (not in spendable form or legally required to remain intact); restricted (constraints on the use of resources are either externally imposed by creditors, grantors, or donors, or imposed by law through enabling legislation); committed (constraints on the use of resources are imposed by formal action of the voters); assigned (reflecting the Selectboard's intended use of the resources); and unassigned.

4. Interfund Receivables/Payables

Activity between funds that are representative of lending/borrowing arrangements that are outstanding at the end of the fiscal year are referred to as "advances from/to other funds". All other outstanding balances between funds are reported as "due from/to other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances".

II. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

A. Budgetary Information

Budgets are approved at the annual Town Meeting in March. Any budget changes require voter approval. There were no budget changes during the year.

The budget presented herein is for the Town's "General Fund" only and does not include the Budget Stabilization Fund and the Town Forest Stewardship Fund that are included with the General Fund as they do not qualify to be reported as separate special revenue funds.

III. DETAILED NOTES ON ALL FUNDS

A. Cash and Investments

The Town's cash and investments as of June 30, 2018 consisted of the following:

Cash:

Deposits with Financial Institutions	\$1,525,809
Deposits with Investment Company	<u>23,794</u>
Total Cash	<u>1,549,603</u>

Investments:

Corporate Bonds	31,872
Mutual Funds – Mixed Holdings	356,138
Common Stock	<u>15,292</u>
Total Investments	<u>403,302</u>
Total Cash and Investments	<u>\$1,952,905</u>

Custodial Credit Risk

Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The custodial credit risk for investments is the risk that, in the event of failure of the counter-party (e.g. brokerdealer) to a transaction, a government will not be able to recover the value of its investments or collateral securities that are in possession of another party. The Town does not have any policy to limit the exposure to custodial credit risk. The corporate bonds, mutual funds and common stock are in the name of the Town and are not exposed to custodial credit risk. The following table shows the custodial credit risk of the Town's cash.

	<u>Book Balance</u>	<u>Bank Balance</u>
FDIC/SIPC Insured	\$ 414,836	\$ 416,009

The book balance is comprised of the following:

Cash – Deposits with Financial Institutions	\$1,525,809
Cash – Deposits with Investment Company	<u>23,794</u>
Total	<u>\$1,549,603</u>

Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. The Town does not have any policy to limit the exposure to interest rate risk. The Town’s common stock and mutual funds are not subject to interest rate risk disclosure.

Information about the sensitivity of the fair values of the Town’s investments to market interest rate fluctuations is provided by the following table that shows the distribution of the Town’s investments by maturity. The corporate bonds are shown at their actual maturity.

Investment Type	<u>Remaining Maturity</u> 1 to 5 Years
Corporate Bonds	\$ <u><u>31,872</u></u>

Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. These organizations look at a number of factors in order to evaluate the risk of an obligation and rate the risk. The rating allows the investor to make informed buying and selling decisions. The Town does not have any policy to limit the exposure to credit risk. The Town’s common stock is not subject to credit risk disclosure. The Town’s mutual funds are open-ended and are, therefore, not subject to credit risk disclosure. The credit ratings for the corporate bonds are as follows:

Investment Type	Standard and Poor's Rating as of June 30, 2018		Total
	A+	A-	
Corporate Bonds	\$ <u><u>20,808</u></u>	\$ <u><u>11,064</u></u>	\$ <u><u>31,872</u></u>

TOWN OF WAITSFIELD, VERMONT
 NOTES TO THE FINANCIAL STATEMENTS
 JUNE 30, 2018

Concentration of Credit Risk

Concentration of credit risk is the risk that a large percentage of the Town's investments are held within one security. The Town does not have any limitations on the amount that can be invested in any one issuer. There are no investments other than mutual funds that represent more than 5% of the total investments.

B. Interfund Balances and Activity

NOTES TO THE FINANCIAL STATEMENTS

C. Fund Balances

GASB Statement No. 34, as amended by GASB Statement No. 54, requires fund balances reported on the governmental fund balance sheet to be classified using a hierarchy based primarily on the extent to which a government is bound to honor constraints on the specific purposes for which amounts in those funds can be spent.

Governmental fund balances are to be classified as: nonspendable (not in spendable form or legally required to remain intact); restricted (constraints on the use of resources are either externally imposed by creditors, grantors or donors, or imposed by law through enabling legislation); committed (constraints on the use of resources are imposed by formal action of the voters); assigned (reflecting the Selectboard's intended use of the resources); and unassigned.

Special revenue funds are created only to report a revenue source (or sources) that is restricted or committed to a specified purpose, and that the revenue source should constitute a substantial portion of the resources reported in that fund. Special revenue funds cannot be used to accumulate funds that are not restricted or committed. These amounts will have to be reflected in the General Fund.

Amounts constrained to stabilization (rainy-day funds) will be reported as restricted or committed fund balance in the General Fund if they meet the other criteria for those classifications. However, stabilization is regarded as a specified purpose only if the circumstances or conditions that signal the need for stabilization (a) are identified in sufficient detail and (b) are not expected to occur routinely. Governments are required to disclose in the notes key information about their stabilization arrangements, including the authority by which they were established, provisions for additions to the stabilization amount, and circumstances under which those amounts may be spent. The Town does not have any stabilization arrangements.

Some governments create stabilization-like arrangements by establishing formal minimum fund balance policies. The Town does not have any minimum fund balance policies.

When expenditures are incurred for purposes for which both restricted and unrestricted amounts are available, it is the Town's policy to first consider restricted amounts to have been spent, followed by committed, assigned, and finally unassigned amounts.

The purpose for each major special revenue fund, including which specific revenues and other resources are authorized to be reported in each, are described in the following section.

The fund balances in the following funds are restricted as follows:

IV. OTHER INFORMATION

A. PENSION PLAN

Defined Benefit Plan

Plan Description

The Vermont Municipal Employees' Retirement System (VMERS) is a cost-sharing, multiple-employer defined benefit pension plan that is administered by the State Treasurer and its Board of Trustees. It is designed for municipal and school district employees that work on a regular basis and also includes employees of museums and libraries if at least half of that institution's operating expenses are met by municipal funds. An employee of any employer that becomes affiliated with the system may join at that time or at any time thereafter. Any employee hired subsequent to the effective participation date of their employer who meets the minimum hourly requirements is required to join the system. During the year ended June 30, 2018, the retirement system consisted of 441 participating employers.

The plan was established effective July 1, 1975, and is governed by Title 24, V.S.A. Chapter 125.

TOWN OF WAITSFIELD, VERMONT
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2018

The general administration and responsibility for formulating administrative policy and procedures of the retirement system for its members and their beneficiaries is vested in the Board of Trustees consisting of five members. They are the State Treasurer, two employee representatives elected by the membership of the system, and two employer representatives-one elected by the governing bodies of participating employers of the system, and one selected by the Governor from a list of four nominees. The list of four nominees is jointly submitted by the Vermont League of Cities and Towns and the Vermont School Boards Association.

All assets are held in a single trust and are available to pay retirement benefits to all members. Benefits available to each group are based on average final compensation (AFC) and years of creditable service.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources

As of June 30, 2017, the measurement date selected by the State of Vermont, VMERS was funded at 83.64% and had a plan fiduciary net position of \$619,510,342 and a total pension liability of \$740,665,894 resulting in a net position liability of \$121,155,552. As of June 30, 2018, the Town's proportionate share of this was 0.1172% resulting in a net pension liability of \$141,947. The net pension liability was measured as of June 30, 2017, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The Town's proportion of the net pension liability was based on a projection of the Town's long-term share of contributions to the pension plan relative to the projected contributions of all participating municipalities, actuarially determined. As of June 30, 2017, the Town's proportion of 0.1172% was an decrease of 0.0026 from its proportion measured as of June 30, 2016.

Summary of System Provisions

Membership – Full time employees of participating municipalities. The Town elected coverage under Group B.

Creditable Service – Service as a member plus purchased service.

Average Final Compensation (AFC) – Group B – Average annual compensation during highest three (3) consecutive years.

Service Retirement Allowance:

Eligibility – Group B – The earlier of age 62 with five (5) years of service or age 55 with thirty (30) years of service.

Amount – Group B – 1.7% of AFC times service as a Group B member plus percentage earned as a Group A member times AFC.

Maximum benefit is 60% of AFC for Group B. The previous amounts include the portion of the allowance provided by member contributions.

TOWN OF WAITSFIELD, VERMONT
NOTES TO THE FINANCIAL STATEMENTS

Significant Actuarial Assumptions and Methods

Investment Rate of Return: 7.50%, net of pension plan investment expenses, including inflation, a decrease from 7.95% in the prior year.

Salary increases: 5% per year.

Mortality – The mortality tables were updated for the current year from variations of RP-2000 with static projection to variations of RP-2014 with generational improvement:

Death in Active Service: Group B – 98% of RP-2014 blended 60% Blue Collar Employee, 40% Healthy Employee with generational projection using Scale SSA-2017.

Healthy Post-Retirement: Group B – 98% of RP-2014 blended 60% Blue Collar Annuitant, 40% Healthy Annuitant with generational projection using Scale SSA-2017.

Disabled Post-Retirement: Group B – RP-2014 Disabled Mortality Table with generational projection using Scale SSA-2017.

Spouse's Age: Females three years younger than males.

Cost-of-Living Adjustments: Assumed to occur on January 1 following one year of retirement at the rate of 1.30% per annum for Group B members, a decrease from 1.8% in the prior year (beginning at normal retirement eligibility age for members who elect reduced early retirement, at age 62 for members of Group B who receive a disability retirement benefit). The January 1, 2018 COLA is assumed to be 0.75%.

Actuarial Cost Method: Entry age actuarial cost method. Entry age is the age at date of employment or, if date is unknown, current age minus years of service. Normal cost and actuarial accrued liability are calculated on an individual basis and are allocated by salary, with normal cost determined using the plan of benefits applicable to each participant.

Actuarial Value of Assets: A smoothing method is used, under which the value of assets for actuarial purposes equals market value less a five-year phase-in of the differences between actual and assumed investment return. The value of assets for actuarial purposes may not differ from market value of assets by more than 20%.

Inflation: 2.50%, a decrease from 3% in the prior year.

TOWN OF WAITSFIELD, VERMONT
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2018

Long-term Expected Rate of Return:

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of June 30, 2017 are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-term Expected Real Rate of Return</u>
US Equity	16%	6.07%
Non-US Equity	16%	7.42%
Global Equity	9%	6.85%
Real Estate	8%	4.62%
Private Markets	15%	7.80%
Hedge Funds	8%	3.95%
Risk Parity	4%	4.84%

Discount Rate – The discount rate used to measure the total pension liability was 7.50%, a decrease from 7.95% in the prior year. In accordance with paragraph 29 of GASB 68, professional judgement was applied to determine that the System's projected fiduciary net position exceeds projected benefit payments for current active and inactive members for all years. The analysis was based on the expectation that employers will continue to contribute at the rates set by the Board, which exceed the actuarially determined contribution, which is comprised on an employer normal cost payment and a payment to reduce the unfunded liability to zero by June 30, 2038. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

The following presents the Town's proportionate share of the net pension liability calculated using the discount rate of 7.50 percent, as well as what the proportionate share would be if it were calculated using a discount rate that is one percent lower (6.50%) or one percent higher (8.50%):

<u>1% Decrease (6.50%)</u>	<u>Discount Rate (7.50%)</u>	<u>1% Increase (8.50%)</u>
\$253,437	\$141,947	\$49,484

TOWN OF WAITSFIELD, VERMONT
 NOTES TO THE FINANCIAL STATEMENTS
 JUNE 30, 2018

B. PROPERTY TAXES

The Town is responsible for assessing and collecting its own property taxes as well as education taxes for the State of Vermont. The tax rate is set by the Selectboard based on the voter approved budget, the estimated grand list and the State education property tax liability. Property taxes are due in four equal installments on September 15, November 15, February 15 and May 15. The penalty rate is eight percent (8%) after the May installment. Interest is charged at one percent (1%) per month for the first three months and one and a half percent (1-1/2%) per month for each month thereafter. The tax rates for 2018 were as follows:

	<u>Residential</u>	<u>Non-Residential</u>
Town	.3779	.3779
Local Agreement	.0034	.0034
Education	<u>1.5458</u>	<u>1.5283</u>
Total	<u>1.9271</u>	<u>1.9096</u>

C. RISK MANAGEMENT

The Town is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Town maintains insurance coverage through the Vermont League of Cities and Towns Property and Casualty Intermunicipal Fund, Inc. covering each of those risks of loss. Management believes such coverage is sufficient to preclude any significant uninsured losses to the Town. Settled claims have not exceeded this coverage in any of the past three fiscal years. The Town must remain a member for a minimum of one year and may withdraw from the Fund after that time by giving sixty days notice. Fund underwriting and ratesetting policies have been established after consultation with actuaries. Fund members are subject to a supplemental assessment in the event of deficiencies. If the assets of the Fund were to be exhausted, members would be responsible for the Fund's liabilities.

The Town has elected to pay actual unemployment claims instead of enrolling in an unemployment insurance program. The Town paid \$488 in unemployment claims during fiscal year 2018.

D. LONG-TERM DEBT

The Town issues general obligation bonds to provide resources for the acquisition and construction of major capital facilities and to refund prior issues. General obligation bonds have been issued for both general governmental and proprietary activities. Bonds are reported in governmental activities if the debt is expected to be repaid from general governmental revenues and in business-type activities if the debt is expected to be repaid from proprietary fund revenues.

General obligation bonds are direct and pledge the full faith and credit of the Town. New bonds generally are issued as 10 to 20 year bonds. Refunding bonds are issued for various terms based on the debt service of the debt refunded.

TOWN OF WAITSFIELD, VERMONT
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2018

The State of Vermont offers a number of low and no-interest revolving loan programs to utilize for predetermined purposes. The Town has borrowed money from the State of Vermont Special Environmental Revolving Fund for a water project.

The Town has other notes payable to finance various capital projects and purchases through local banks.

The Town enters into lease agreements as the lessee for the purpose of financing the acquisition of major pieces of equipment. These lease agreements qualify as capital lease obligations for accounting purposes (even though they may include clauses that allow for cancellation of the lease in the event the Town does not appropriate funds in future years) and therefore, have been recorded at the present value of the future minimum lease payments as of the inception date of the leases. Leases are reported in governmental activities if the debt is expected to be repaid from general governmental revenue and in the business-type activities if debt is expected to be repaid from proprietary fund revenue.

Long-term debt outstanding as of June 30, 2018 was as follows:

Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with "Government Auditing Standards"

Selectboard
Town of Waitsfield, Vermont
4144 Main Street
Waitsfield, Vermont 05673

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in "Government Auditing Standards", issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Waitsfield, Vermont, as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the Town of Waitsfield, Vermont's basic financial statements, and have issued our report thereon dated November 15, 2018. Our opinion on the governmental activities and the Cemetery Trust Fund was qualified because of the recording of investments at market value rather than cost.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Town of Waitsfield, Vermont's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Town of Waitsfield, Vermont's internal control. Accordingly, we do not express an opinion on the effectiveness of the Town of Waitsfield, Vermont's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the Town of Waitsfield, Vermont's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. In addition, because of inherent limitations in internal control, including the possibility of management override of controls, misstatements due to error or fraud may occur and not be detected by such controls. Given these limitations during our audit, we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

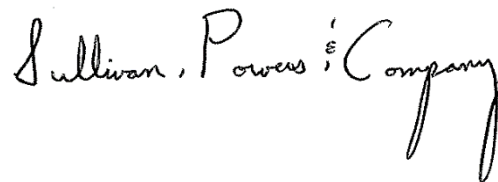

As part of obtaining reasonable assurance about whether the Town of Waitsfield, Vermont's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under "Government Auditing Standards".

However, we noted certain other matters that we have reported to the Town of Waitsfield, Vermont in a separate letter dated November 15, 2018.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Town of Waitsfield, Vermont's internal control or on compliance. This report is an integral part of an audit performed in accordance with "Government Auditing Standards" in considering the Town of Waitsfield, Vermont's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
